### SPECIFICATION OF REPAIRS.

No. 35—Forty feet of this bridge to be replanked with three inch oak fourteen feet long.

No. 36—West span to be strengthened by timber crosswise of stringers and blocked on west bank. Centre span to have two new stringers of good oak or chestnut sixteen feet long and not less than eight inches thick at small end after squared, east span two stringers twelve feet long of same quality and size as those in centre span. This repair work has all been completed satisfactorily.

And that the dry cut north of No. 35 be cleaned out to let the over-flow cut a new channel direct to mouth of bridge, which would be of great benefit to the abutments of this bridge.

To the Warden and Members of the County Council of the County of Norfolk.

Gentlemen :

We, your Committee on Roads and Bridges, beg to report in a summary manner the work done under this Committee.

In July those of the Committee concerned met on Concession 7 Walsingham, and arranged for repair work to be done on Bridges Numbers 35 and 36, which was completed at a cost for labor and material of \$85.36. Later in the season a wash out caused some work to be done at a cost of \$3.75.

Some grading and graveling was done on the townline between Oakland and Townsend at a total cost to each County (Norfolk and Brant) \$36.46.

Owing to change in Norfolk County Road System a bridge over Big Creek has been added to the list. This is a steel structure with stone abutments 100 feet in length with 14 feet plank floor. It is on the dividing line of North Walsingham and Charlottesville. This bridge has been added to the list of 1923 and numbered 44.

Repair work was done on the bridge under Supervision of Warden Roney at the total cost for labor and material of \$145.50.

Later this fall the roadway at bridge number 12 on the Town-line between Townsend and Walpole became impassible by a part of the road bed going out. This was repaired at a cost of labor and material of \$47.70, of which Haldimand is billed for half, \$23.85.

The total amount of expenditure on Roads and Bridges \$294.92.

To the Warden and Members of the County Council of the County of Norfolk.

Gentlemen :

The Public Building Committee beg leave to report as follows:

On August 13th we met and gave a contract to James Holden to install a furnace in the Children's Shelter at a price of \$325.00.

We made a verbal agreement with him that it was to give perfect satisfaction in every detail. On December 1st we again met and visited the Shelter and found the furnace installed and working well except one register which is located in the boys play room which was not warming the room. We had an interview with Mr. Holden, he has agreed to put in a cold air pipe in that part of the building which he thinks will remedy the trouble. We would recommend that the Treasurer pay the contract price as soon as Mr. Carter reports that the furnace is working satisfactory.

Your Committee found the Shelter in splendid condition. Ten children are now being cared for there, we found them comfortably clothed and enjoying good health.

We also visited the Jail and found it without a prisoner confined there, which we think speaks well for the County. Mr Robertson told us he had not had a prisoner since 4th of November.

We would recommend that Mr. Robinson be given authority to buy a new bed for the Turnkey and that a new gas stove be placed in the Turnkey's room, to replace the old one which we think is burned out and beyond repair, at a cost of \$10.50.

Committee fees to date \$20.00.

The Report is as follows :

### **Report of Committee of the Whole.**

To the Warden and Members of the County Council of the County of Norfolk.

Gentlemen:

Anent communications 1, 2 and 3 from the Ontario Motor League and the County of Halton.

Your Committee deems :

That it is not advisable to compel all horse drawn vehicles to carry front and rear lights between dusk and dawn, much less between sunrise and sunset.

That as inefficient lenses have been authorized, these should be prohibited and a radical alteration made in the form of reflectors in automobile lamps should be effected, which done, would greatly minimize the danger on the Highway.

That appreciative of the danger of the combination of glare lights and unlighted vehicles on the Highway at night, the lighter horse-drawn vehicles should be required by Provincial Legislation to carry, when on Public Highway between dusk and dawn, a rear red light or effective red reflector.

That Motorists should never assume that the right of way is clear at night for excessive speeding.

That a copy of this resolution be sent to the Highway Department, the County of Halton, and Ontario Motor League.

That a grant of \$75.00 be made to the Norfolk Poultry Association.

That a grant of \$50.00 be made to the Norfolk School Trustees and Ratepayers Association.

That the Report of the Management Committee of the Industrial Farm and Home be adopted and recommendations therein contained indorsed.

All of which is respectfully submitted.
